

ELECTION PROBABLE FOR ROAD DISTRICT

PETITION CIRCULATED AND BEING GENERALLY SIGNED.

Will Be Presented at Next Regular Meeting of the County Commissioners.

Certain citizens have interested themselves in behalf of the good roads movement so far as the Gainesville district is concerned and are now busy with a petition, which is being freely signed.

The petition states that an election is desired by the signers to determine whether or not Gainesville shall be made a sub-road district and give them the advantages of hard roads throughout this section of the county at least.

The great influx of automobiles in this city has had a tendency to stimulate the movement, and at the rate the petition is being filled with names, it looks like all classes want better roads.

If the proper roads are constructed in this section it will attract many parties here who otherwise go elsewhere, and it is hoped that the election will be called, and if successful, the movement started in sufficient time to get some of the winter traffic this fall.

Good roads have done more towards building Orlando than any other one thing, and, thanks to the automobile people, it now looks as if they will again infuse new life on the subject and get the people awake in this section.

The list is now at Miller's store and if you haven't already placed your name upon it do so at once, for it is the intention of the promoters to present the same at the next meeting of the county commissioners and see if they will not take some action in the matter.

WINDSOR ITEMS.

WINDSOR, Aug. 26.—The farmers in the near vicinity of Windsor have ceased making complaint of dry weather for some time past.

Cotton is opening rapidly, but will be a short crop on account of too much rain.

J. A. Williamson and Tom Morrison have been hunting alligators in Newman's lake. They got twenty-three fine skins in three nights' hunting.

Mr. and Mrs. J. A. Rosborough are spending some time with friends in South Carolina and Georgia.

The other day George Ray, a colored boy in the employ of E. D. Phifer, killed a small rattlesnake. He then saw another and killed it; then he saw a third run down a hole, so he went to the house and informed Mr. Phifer he had found a hole full of snakes. Mr. Phifer took his shovel and accompanied the boy to the field and dug out the hole, with the result they killed fourteen more rattlesnakes.

Mrs. D. M. Phifer has gone to see her daughter-in-law, Mrs. Marvin Phifer, who is quite ill.

Mr. Latimer, who holds a position with the East Coast Railroad Company, was here last week on a short visit to his family.

Dalton and Fritz Rosborough are making preparations to go to Augusta, Ga., next Tuesday, where they will attend school this coming session.

H. Spiva of this place has twenty-four acres of the finest pasture ever seen here. Mr. Spiva raised the best corn seen in this section in years, and now has a field full of velvet beans and pindars. The beans in places are three and four feet deep on the ground.

Cured Hay Fever and Summer Cold.

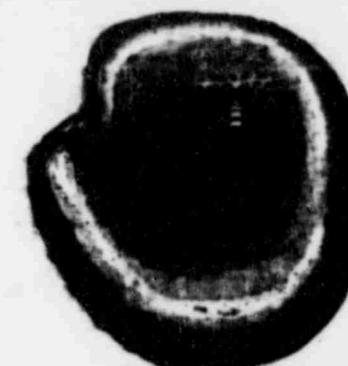

A. S. Nusbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed only to aggravate it. Fortunately I insisted upon having Foley's Honey and Tar. It quickly cured me. My wife has since used Foley's Honey and Tar with the same success." J. W. McCollum & Co.

If it's printed stationery you want, The Sun office is the place to get it.

BAIRD HARDWARE COMPANY

Base Ball Goods

We are agents for the famous REACH line, the most popular among professional and amateur players. The REACH trademark is a sign of Highest Quality, a guarantee of Positive Satisfaction. A large stock to select from.

SOUR OR ILL-FLAVORED MILK.

By John M. Scott, Florida Agricultural Experiment Station.

The souring of milk is due to the growth of bacteria. Bacteria are found in large numbers in the air we breathe, the water we drink, and in the food we eat. But most of these bacteria are harmless. The special bacteria which have most to do with the souring of milk are found nearly everywhere. They cannot be seen without a microscope. One drop of milk may contain as many as 100,000,000. From this it is easy to understand why we cannot see them as individuals. However the practical dairyman does not require the assistance of a high-power microscope to determine whether or not he has undesirable bacteria about his dairy.

The rapidity with which they multiply soon makes their presence known. Under favorable conditions of food and temperature, bacteria will double in number every half hour. Fresh milk furnishes ideal conditions for the growth and development of many kinds of bacteria. It is for this reason that their effect on milk is so quickly noticed.

How to Control Bacteria—Most of the bacteria that require the attention of the dairyman grow and multiply best at a temperature of 80 to 100 degrees Fahrenheit. Some will grow even at the low temperature of 35 to 40 degrees F., but their growth is then much slower. A temperature of 135 to 145 degrees F. for a few moments will destroy the greater number of bacteria. However there are a few that can withstand a considerably greater heat. A complete sterilization will require a temperature of about 220 degrees F. for a few minutes.

Cleanliness is the only way to prevent bacterial contamination—cleanliness not only in the dairy barn, but also with regard to the dairy utensils and the milker himself. After the milk is drawn, the temperature should be lowered as quickly as possible to about 40 degrees F. This low temperature retards the growth of bacteria, and the milk will keep for a longer period.

How Bacteria Affects Milk—There are many changes brought about in milk that are due to the action of different bacteria. The most common change is the souring and curdling of the milk. The rapidity with which milk sours, at a given temperature, depends upon the number of bacteria present. The number of bacteria in the milk depends upon the conditions under which the milk is drawn and kept. As stated above, bacteria develop and grow faster at summer temperature (80 to 100 degrees). Hence if milk is kept at or near this temperature, the bacteria will develop rapidly, and the milk will sour in a few hours.

We often hear the complaint that the milk has a disagreeable flavor. This flavor is also imparted to the

butter. Such occurrences are annoying. However, in the greater number of cases, sour or badly flavored milk is due to neglect or carelessness. Milk when drawn from healthy cows is, under normal conditions, free from these objectionable features. If it is kept under proper conditions it will remain sweet for a considerable length of time.

When first drawn, milk may have no ill flavor, but after standing for a few hours may develop a disagreeable bitter taste. This is not always due to bacteria. Improper feeding, or the use of certain feeds, such as onions or turnips, is often the cause of the trouble. If it is known that feeds of this nature have not been given, then the bad taste is probably due to bacteria.

Slimy milk is another trouble that is no stranger to the dairyman. It is sometimes due to a diseased condition of the cow. But probably, in a majority of cases, it is due to bacteria. There are numerous other troubles familiar to the dairyman that are due to bacteria, but the above are the commonest ones.

Practical Rules—1. Don't let many bacteria get into the milk if you can help it. A little milky deposit on an imperfectly cleaned can may contain as many bacteria as the population of the world, ready to infect the fresh milk.

2. Keep the milk cool by the use of ice, or otherwise, so that the bacteria can only grow slowly.

3. If ice is not available and milk has to be kept longer than usual, pasteurize it by heating to 140 degrees F. for 20 minutes, and it will keep better.

State papers please copy.

GILBERT—MANNING.

At the home of Joseph Manning Wednesday night, the 25th, Mr. James R. Gilbert of St. Petersburg and Miss Ruby Gertrude Manning, daughter of Mr. and Mrs. Joe Manning, were united in marriage. While the ceremony was to be of a private nature, yet it got "noised about" and a large gathering were present.

The ceremony was performed in an impressive manner by Elder J. T. Johnson, pastor of the Advent Christian church.

Ice cream and cake was served in a very tempting manner, after which an hour was pleasantly spent in songs and music.

Disagreeable at Home.

Lots of men and women who are agreeable with others, get "cranky" at home. It's not disposition—it's the liver. If you find in yourself that you feel cross around the house, little things worry you, just buy a bottle of Ballard's Herbine and put your liver in shape. You and everybody around you will feel better for it. Price 50 cents per bottle. Sold by W. M. Johnson.

LOCKED IN A REFRIGERATOR.

CHICAGO, Aug. 26.—A daring hold-up man entered the saloon of Robert K. Jeldsen Tuesday night, and after robbing the proprietor and four of his patrons locked them in the ice box and escaped with \$150 which he had taken from the men.

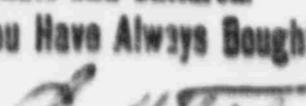

It was some time before the men could attract the attention of people, who released them from the ice box.

Baby Morphine Fiends

Are made by all soothing syrups and baby medicines that contain opium and narcotics. McGee's Baby Elixir contains no injurious or narcotic drugs of any kind. A sure and safe cure for disordered stomachs, bowels and fretfulness—splendid for teething infants. Sold by W. M. Johnson.

The want ads. do more real estate business than all other brokers combined—in fact, they "start" most of the business that the brokers and agents handle.

S.S.S. CURES SKIN DISEASES

The cause of all skin diseases can be traced to some humor or acid in the blood; the cuticle is always healthy where the circulation is free from impurities. When the blood is infected with acrid or unhealthy matter it cannot perform its natural work of nourishing the skin, regulating its temperature and preserving its normal softness, pliability and healthfulness. Instead it irritates and inflames the delicate fibres and tissues around the pores and glands and produces some of the many forms of skin disease. The itching and stinging so often accompanying skin affections are produced by the deposit from the blood of the acrid humors with which it is filled, into the sensitive membranous flesh lying just beneath the outer covering, and surrounding the countless nerves, pores and glands. This explains why scratching the outer skin affords no relief from the itching and burning. S. S. S. cures Skin Diseases of every character by purifying the blood. It goes down into the circulation and removes the humors or acids which are causing the trouble, builds up the weak, acrid blood, and permanently cures every variety of skin affection. Local applications can only soothe; they never cure because they do not reach the blood. S. S. S. goes right into the circulation, reaches the trouble and cures it by removing the cause. Book on Skin Diseases and any medical advice free to all who write.

FARMERS WILL BE ASSISTED BY THE U.S.

STATE AGENT HERE THURSDAY
LOOKING OVER SITUATION.

Alachua County Will Be Given One
of the Eight Local Agents
to Be Appointed.

A. S. Meharg, State agent for the Department of Agriculture from Washington, who has established his headquarters at Live Oak, was a visitor to Gainesville Thursday, having come here to look over the agricultural interests.

This matter has only recently been taken up in this State, but now sufficient money has been appropriated and it will be looked after more closely and from a scientific standpoint.

Mr. Meharg now has the power and will appoint eight men from the State at large to look after different sections of the State in the agricultural line and this will prove a great benefit to the farming element if they will take heed and attend the lectures that will be given regularly at specified points.

Alachua county being of such large proportions, and possessing such vast agricultural interests, it will have one of the special agents appointed for this place exclusively whose duties will be to look after the crops and render reports, giving lectures, and at the same time furnishing all the available information possible for the good of the farmers.

This work which has just begun will mean more for Florida's agricultural interests than anything that has been started here for some time, and if it meets with proper encouragement from the farmers, more extensive arrangements will probably be made for them.

Take Notice.

All persons are recommended to take Foley's Kidney Remedy for backache, rheumatism, and kidney and bladder trouble. It will quickly correct urinary irregularities, which, if neglected, may develop into a serious illness. It will restore health and strength. Do not neglect signs of kidney or bladder trouble and risk Bright's disease or diabetes. J. W. McCollum & Co.

NEEDFUL KNOWLEDGE

Gainesville People Should Learn to Detect the Approach of Kidney Disease.

The symptoms of kidney trouble are so unmistakable that they leave no ground for doubt. Sick kidneys excrete a thick, cloudy, offensive urine, full of sediment, irregular of passage or attended by a sensation of scalding. The back aches constantly, headaches and dizzy spells may occur and the victim is often weighed down by a feeling of languor and fatigue. Neglect these warnings and there is danger of dropsy, Bright's Disease, or diabetes. Any one of these symptoms is warning enough to begin treating the kidneys at once. Delay often proves fatal.

You can use no better remedy than Doan's Kidney Pills. Here's Gainesville proof:

Mrs. James Doig, 902 Alachua avenue, Gainesville, Fla., says: "It is now some time since I used Doan's Kidney Pills and I am glad to say that I have had no need of a kidney remedy. Several years ago Doan's Kidney Pills drove away a severe attack of kidney trouble and time has proven the cure to be a permanent one. I take pleasure in recommending Doan's Kidney Pills to other kidney sufferers."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

ARCHER NOTES.

ARCHER, Aug. 26.—S. Frie, Miss Mary Frie and Walter Donell spent a week at Daytona very pleasantly. Mrs. S. Frie is visiting in Bradenton. W. L. Jackson has returned from Worthington Springs, and says Hotel Worthington is a nice place to visit and receive good treatment.

Sam Fleming has gone to Baltimore for his fall stock of goods.

Mrs. E. O'Donald has returned to Jacksonville.

Mrs. Smith and daughter are visiting Mrs. Winecoff in Atlanta.

J. K. Tuten is doing business now on Main street.

Mrs. Hodgson of Lakeland, with her sister, Miss Jennie Hayden, are visiting R. B. Hodgson's family.

Miss Kittie Hodgson is visiting relatives in North Carolina.

Mrs. W. E. Brown has a sister and sister-in-law visiting her.

Mr. Bradshaw has bought R. B. Hodgson's gin-house and has moved his family into the Rodgers cottage.

BELL BRIEFS.

BELL, Fla., Aug. 26.—The farmers are again busy as bees in a tar bucket gathering in the golden sheaves and building store houses to garner the products, wherein they are most bountifully blessed.

J. A. Ward has ginned three bales of this year's fruits.

Messrs. Jones and Polk have just completed their new gin-house and have four bales in house to start their new machines with.

John Everett has gone to Washington, D. C., hoping to be benefitted, if not restored to his usual health. He says he feels quite improved already.

Our people are highly pleased that the piano in the contest was awarded to one of Bell's contestants.

Card From Miss Rives.

To my kind friends and supporters in regard to the contest just closed in Gainesville: I want to thank each and every one and assure them that their kindness will never be forgotten.

As my health for the last two months has prevented me from working as I could have, I know that some have been.

Thank you again, I am respectfully,

ROSA LEE RIVES

High Springs, Fla., Aug. 26, 1909.

A Weakling

Is the only way to describe the poor child that is afflicted with worms. No matter how much or how often it eats, the worms get all the nourishment from the food—the child gets practically none. White's Cream Vermifuge gets rid of the worms quickly, easily and with no bad after effects. Price 25 cents a bottle. Sold by W. M. Johnson.

Typewriter ribbons for sale at this store. The best on the market. Only twenty-five cents. All colors and for use on all standard machines.

OAK HALLS SHUT OUT BY BRICK CITY TEAM

(Continued from Page One.)

home plate; Waller hit through short, scoring Donaldson; Collins out on a fly to center; Walker popped out to short. Hits 0, runs 4.

Hendricks went out, pitcher to first; Allen singled to right, and went to second on Graham's sacrifice, but was caught between second and third. Hits 1, runs 0.

Seventh Inning.

Bennett went to first on Yoe's error, but was forced out at second on Galloway's grounder; Izler struck out and Galloway caught trying to steal second. Hits 0, runs 0.

Spottswood out, pitcher to first; Miller went the same route from third; Yoe hit to left, but Bullock retired the side on a fly to right.

Eighth Inning.

Selph reached first on error of Hendricks, but was caught, Bullock to Allen; Donaldson out, Allen to first; Dodge flew out to Graham. Hits 0, runs 0.

Denton struck out; Hendricks skied out to Galloway; Allen struck out. Hits 0, runs 0.

Ninth Inning.

Waller flew out to Graham; Collins out, third to first; Walker retired the side, second to first. Hit 0, runs 0.

Graham hit by batted ball, called out; Spottswood hit to right-field fence for one base; Miller popped out to first; Spottswood stole second; Yoe popped out to pitcher. Hits 1, runs 0.

"Old Stand With New Name"

ANOTHER NEGRO IS CAUGHT "TIGERING"

WALDO DEPUTY CATCHES ONE
IN ACT ON WEDNESDAY.

Was Given Preliminary Hearing Be-
fore Justice Tillis and Bound
Over to Circuit Court.

Ned Blocker, a negro of Waldo, has
"broken into trouble" by selling
"booze," having been arrested by
Deputy Sheriff Strickland at that
place on Wednesday.

The officer had suspected the negro
for some time, and found his weak
spot was for "good money" and he
laid his plans well to take him in
just as he was in the act of getting
some of the "wherewith" in exchange
for his article of fire water.

When Blocker was arraigned before
Justice Tillis of Waldo he stoutly denied
the charge and claimed to the last that he was innocent,
but after Deputy Strickland produced a
couple of bottles of the stuff and also the witness who had purchased the
"booze," the justice decided otherwise and bound him over to the next
term of circuit court.

Deputy Strickland was here yesterday
and stated that he believed there
were still a number of whiskey peddlers
in the place, and he proposes to rid his section of them.

The Twice-a-Week Sun is an eight page, forty-column paper, published every Monday and Thursday, and contains all the news of the week, local, State and general, and will be mailed, postage free, to any part of the United States or Canada, for \$1.20 a year—in advance.

All advertising bills become due after first appearance of advertisement, unless otherwise stipulated in contract. Parties not known to us will be required to pay for advertising in advance. Address, THE DAILY SUN, GAINESVILLE, FLA.

Edwin O. Reid, one of the founders and charter members of the New York Stock Exchange, is dead at the age of 80.

More than \$300,000 worth of birds were imported into the country during the year 1908. They were largely parrots and canaries.

Senor Mariscal, the Mexican Minister of Foreign Affairs, denies that there is any fear of a revolution in that country as the result of the coming Presidential election.

Secretary MacVeagh proposes to do away with silver dollars. If the "cart wheel" passes Westerners will be able to dispense with wagons in taking home the weekly salary.

American manufacturers with their eyes on foreign fields of conquest should take notice that the South African union offers splendid opportunities for Yankee push and enterprise.

From the increase of \$20,000,000 in the declared valuation of taxable personal property in Boston it is evident the inhabitants of the city have grown suddenly more wealthy—or more honest.

According to the Treasury Department Auditor, out of \$2,024 dutiable articles enumerated in the new tariff bill, the rates on 681 were decreased and on 233 were increased, as compared with the corresponding duties in the Dingley law.

A report from San Francisco states that Associate Justice Joseph McKenna of the United States Supreme Court is about to retire on account of ill health. Governor-General James F. Smith of the Philippines is named as a likely successor.

Pittsburghers are worrying over reports that Andrew Carnegie is "tightening up" in his benefactions. The greatest source of concern lies in the fact that the Laird of Skibo has stopped short in the middle of the erecting of his \$10,000,000 technical schools.

Lake City is to have a Merchants' and Business Men's barbecue, basket picnic and prize contest in the public square in that place tomorrow. It promises to be a big affair. Dr. Julian and Senator Fletcher will make addresses. The program is an elaborate and interesting one.

Companies operating coastwise steamers report an increase in passenger and freight traffic that points to a record-breaking season, the increased industrial and agricultural activity all over the country accounting for the large cargoes and expressing itself also in increased passenger travel.

That the important matter to be taken up at the National meeting of the Farmers' Union at Birmingham next month will be that of organizing a crusade against bucket shops throughout the entire country was the statement recently made by R. H. McCullough of Beebe, Ark., chairman of the executive committee of the Arkansas Farmers' Union and National secretary of the Union.

A SUDDEN CHANGE OF FORTUNE.

One of the most remarkable instances of a sudden revival of party popularity and prestige is being witnessed just now in Great Britain. Up to a few weeks ago the Liberal ministry was rapidly losing ground, and the bye elections went so steadily against the party that no seat was considered safe. Now all is changed, and the wizard who has brought it about is Lloyd George, and the instrument is the budget. Meeting with a dubious reception when introduced it is now the most popular budget in many years. It has caught the people's fancy, bye elections now go in favor of the ministry. Lord Harmsworth, the great newspaper man, after posing as a Tory, now comes out boldly in favor of the budget, and, to all appearance, the Liberals will remain in power for years.

That which has wrought the change is the proposed tax on unearned values. The people rejoice that the rich classes able to pay the increased taxes are to be made to pay, and that through the unearned increment. One single instance throws light on the whole question.

A landlord in Greenock, Scotland, had a piece of unimproved land rated at \$60 per year. The government wanted it for naval purposes, and for this piece of land, the rating of which had been fixed many years ago, the government had to pay \$176,000. No wonder the people favor a tax of one-fifth on such unearned increment.

CURRENT COMMENT.

The Chattanooga Times says: "No forestry reservations for your Alabama solons. That project seems to have been loaded with indignant and protesting voters as a genuine dog tax would be in a Tennessee general assembly. When it comes to denying the people the right of denuding the forests the command is 'halt.' Queer freaks are exploited with 'liberty' these days."

The Nashville American (Dem.) says: "Mr. Bryan will never again lead the Democratic party as its Presidential candidate. He has been singularly honored by the party. He should no longer attempt to dictate policies three times repudiated by the people. If he be the Democrat he claims to be, and the people believe him to be, he will fall into line for some other man who may be more in touch with public sentiment and who can achieve success. The party cannot sacrifice its chances for success by longer hitching its wagon to a fading star."

The Philadelphia Record says: "In contributing \$50 toward the fund for a portrait of Mr. Cleveland to be placed in the executive chamber of the State capitol at Albany, Justice Peckham wrote of him: 'He was a member of the Democratic party because he believed with all his faith and all his heart that its principles if carried out in practice would be the greatest happiness and prosperity of the people.' He was a man of truly public spirit, and the more the American people watch other men in public life the more they appreciate the public services of Grover Cleveland."

The Louisville Courier-Journal says: "The things most needed in the business of census-taking are accuracy and celerity. Every census should be an improvement—a marked improvement—on the preceding one. There should be a higher degree of accuracy and quicker publication of results. In the Census Bureau, as in other things, past experience should be an aid to, and an assurance of, better accomplishments. The returns of the census of 1910 will stand for the next ten years without any material modification in any particular. There may be bulletins in the interim, estimates, guesses and forecasts involving a variety of matters, but the figures of 1910 will remain in the books of reference until the enumeration of 1920. It is devoutly to be hoped that better showing will be made than at any previous census, and that there will be fewer causes of complaint."

Organized to operate on the lines of the National Railways of Mexico, the Mexican Express Co., capitalized at \$1,000,000, will begin business Sept. 1. E. H. Harriman and associates of the Wells Fargo Co. own 85 per cent of the capital stock and the Mexican government the remainder.

Much is being said just now about the vast undeveloped resources of the South; and the resources are unquestionably here. They will be developed, too. The only question is by whom it is to be done. If the children of the South are given practical training in the arts and sciences, they will do the work and reap the profits from it; if they are permitted to grow up ignorant and untrained, men from other sections will take charge of the work and get the profits, and our children will be made mere hewers of wood and drawers of water for alien capital and alien knowledge.—Raleigh (N. C.) Progressive Farmer.

By arranging for the refunding of the external debt of Honduras, the United States has placed itself in a position to guarantee and insist upon the complete neutralization of the little Central American Republic. The principal republics lying between Mexico and Panama have already agreed among themselves, in the treaty of Washington, upon the principle of Honduran neutrality, but the bond for its observance is now for the first time strong.

As organized by the Interstate Commerce Commission, the block signal and train control board is now experimenting with two devices for automatically controlling speed and stopping trains. One of these has been installed on the Burlington near Chicago, and the other on the Santa Fe in Southern California.

Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, O.

Sold by druggists, 75c. Take Hall's Family Pills for constipation.

CASHNOW

NEWS FROM ALL PARTS OF FLORIDA

Contractor Main anticipates that the new theater for Miami will be finished, so far as his contract is concerned, by September 1st, although it will probably be September 15th or October 1st before the theater is really ready for occupancy.

With nearly ninety prisoners in the county jail at Tampa awaiting trial before the Criminal Court of Record of Hillsborough county, the capacity of the jail is heavily taxed. This is the greatest number of prisoners incarcerated in the county jail at one time that has been known recently, the average of the Criminal Court of Record being sixty prisoners.

Since the contract to construct the Daytona High School has been awarded Architect Walter C. DeGarmo of this city will begin to make fortnightly trips to that city to inspect the work. Mr. DeGarmo drew the plans and specifications for this handsome building and was appointed supervising architect. The contract price is \$41,500.—Miami Metropolis.

A fine sample of rice grown in Jacksonville was on exhibition at the Bay street offices of the Florida East Coast Railway this morning, and it attracted considerable attention from the passersby. The rice was grown without fertilizer, and was about four feet in height, with heavy and well-developed heads. It was raised by W. M. Love, of 934 Madison street, who considers it a fine example of what can be done on the low lands in the vicinity of this city.—Metropolis, 24th.

Fire Chief Haney arrived in the city Tuesday morning from an extended visit to Northern points, after attending the convention of the International Association of Fire Engineers at Grand Rapids, and is greatly enthused with the scope of the association's work. He was accompanied back to the city by Chief George Fullford of the Key West fire department, and it goes without saying that the pair had a pleasant trip back to Florida. Chief Haney states that the meeting at Grand Rapids, Mich., was unquestionably a success, chiefs of the fire departments of the various cities

THIRD
OPERATION
PREVENTEDBy Lydia E. Pinkham's Veg-
etable Compound

Chicago, Ill.—"I want to tell you what Lydia E. Pinkham's Vegetable Compound did for me. I was so sick that two of the best doctors in Chicago said I would die if I did not have an operation. I had already had two operations, and they wanted me to go through a third one. I suffered day and night from inflammation and a small tumor, and never thought of seeing a well day again. A friend told me how Lydia E. Pinkham's Vegetable Compound had helped her, and I tried it, and after the third bottle was cured."—Mrs. ALVENA SPERLING, 11 Langdon Street, Chicago, Ill.

If you are ill do not drag along at home or in your place of employment until an operation is necessary, but build up the feminine system, and remove the cause of those distressing aches and pains by taking Lydia E. Pinkham's Vegetable Compound, made from roots and herbs.

For thirty years it has been the standard remedy for female ills, and has positively restored the health of thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulence, indigestion, dizziness, or nervous prostration. Why don't you try it?

attending, and many new ideas coming up for a thorough discussion by the association.—Times-Union.

Jammed between a ship and a wharf, with his head under water, was the predicament of John Stewart, a bayman of Pensacola, and it was only through bravery and presence of mind of the mate of the Italian ship Gavaronne Fratelli that the man was saved. Stewart was on a car loaded with lumber when almost half of it slid off on top of him. His head went into the water, while the immense quantity of lumber rested on his body, making it impossible for him to move. His comrades could not remove the lumber in time to save his life, but the mate of the vessel thought of a means, and, quickly springing into the bay, swam to the man and held his head out of the water until the lumber could be removed.

Fire started in the second story of the building on upper Franklin street, occupied by Wolf Brothers, clothing merchants, about 10:15 o'clock last Sunday, and before the flames could be checked the building was partially gutted, its roof burned off, and the Wolf Brothers stock damaged to the extent of \$40,000, as estimated by one of the members of the firm. Mr. Wolf stated that the firm had just (the latter part of last week) received a new stock of shoes, aggregating \$5,000 in value, which were practically ruined by water and smoke. The fire was caused by alleged defective wiring of the electric lighting system of the building. The roof was burned off on the south side of the building and from the building next to it, occupied by James Argo, the restaurant man, who, with his wife, occupied rooms on the second floor, which were deluged with water and their furniture damaged.

Captain J. W. Bryan is dead. This veteran of the War Between the States and a leader in the Confederate army, passed peacefully away at his home at 11:30 last night after an illness of many years brought on by that impairment of constitution which almost invariably accompanies the encroach of years. For a great part of this time he had not left his home although not confined to his bed. He spent a great deal of his time in an easy chair on the front porch of his home and by an intimate circle of friends was very much beloved. At all times he took an active interest in those things of moment happening in the city and through the country and was, in his active career, one of the best informed and best known men of Tampa, having made his home here for many

years. Captain Bryan was well-known to all the pioneer Tampans and his funeral, to be held at 4:30 from his residence, No. 308 Ross avenue, this afternoon, will be largely attended by these as well as by Camp Loring Confederate veterans. Captain Bryan was one of the organizers of the camp.—Tampa Tribune, 24th.

FOR SILVER SERVICE.

Board of Trade Takes Action to Secure Funds.

At the suggestion of Mayor Davis the Gainesville Board of Trade have taken up the matter of raising funds for the purpose of a silver service for the battleship Florida.

Parties desiring to contribute to the fund can notify B. F. Hampton who is secretary, and the amount will be credited. Following is the list of contributions up to last night:

B. F. Hampton	\$ 5.00
B. R. Colson	1.00
Shields Warren	1.00
J. S. Chubb	1.00
E. E. Cannon	1.00
H. B. Arnold	1.00
W. R. Thomas	1.00
W. W. Hampton, Jr.	1.00
E. D. Turner	1.00
H. P. Robinson	1.00
A. R. Harper	1.00
F. W. Shands	1.00
W. H. Anderson	1.00
R. G. Zetrouer	1.00
J. W. Blanding	1.00
E. G. Baxter	1.00
Dr. Geo. S. Waldo	1.00
Phifer Bros.	1.00
Geo. K. Broome	1.00
Dr. H. C. Spencer	1.00
Hon. Frank Clark	1.00
Geo. Glass, High Springs	1.00

Contributions to the above fund will be received from parties residing at any point in Alachua county.

MRS. HELEN GOULD IS
GIVEN ABSOLUTE DIVORCE.

NEW YORK, Aug. 26.—Mrs. Helen Kelley Gould obtained her final decree of divorce from Frank J. Gould yesterday.

The interlocutory decree was signed on May 20 of this year.

The decree gives the custody of the two children, Helen and Dorothy, to each parent for six months to each year.

Mr. Gould is not permitted to remarry in this State until after the death of his wife. The papers do not mention alimony.

DREAD CHOLERA RAGES
IN RUSSIAN CAPITAL.

ST. PETERSBURG, Russia, Aug. 25.—There were 29 new cases of cholera here and 12 deaths from the disease during the 24 hours ending at noon yesterday.

Fifty new cholera cases have been registered at Klopine, in the Tsarskoe Selo district.

Forty-one peasants have been arrested at Pskov charged with participation in the recent cholera rioting in that town.

Active at 87.

This would be unusual news if men and women would keep themselves free from rheumatism and all aches and pains as well as keeping their muscles and joints limber with Ballard's Snow Liniment. Sold by W. M. Johnson.

The Fox and the Hen.

A Fox, having crept into an out-house, looked up and down for something to eat and at last spied a Hen sitting upon a perch so high that he could by no means come to her. He therefore had recourse to an old stratagem. "Dear cousin," he said to her, "how do you do? I heard that you were ill and kept at home. I could not rest, therefore, till I had come to see you. Pray let me feel your pulse. Indeed, you do not look well at all." He was running on in this impudent manner when the Hen answered him from the roost: "Truly, dear Reynard, you are in the right. I was seldom in more danger than I am now. Pray excuse my coming down. I am sure I should catch my death." The Fox, finding himself foiled, made off and tried his luck elsewhere.—Aesop.

TELEPHONE TALKS

The Long Distance System

One of the most valuable features of our service, to our subscribers and to the public generally, is our connection with the extensive long distance lines of the American Telephone and Telegraph Company and the other associated Bell Telephone companies.

We own thousands of miles of long distance lines in the seven States in which we operate and in addition can connect any telephone in our system with lines extending to any other city in which a Bell Telephone system is operated.

These long distance lines are of the most modern and improved construction and are maintained at a high state of efficiency. The Bell systems,

operating in various sections of the country, are uniform in their equipment and in their methods of operating.

Only by reason of this close traffic arrangement between the Bell Telephone companies is it possible to go to a Bell Telephone almost anywhere and ask for "Long Distance" and be put in communication with almost any point in the country.

This vast network of wires, radiating throughout the nation, is used daily in commerce and for social purposes by the banker, the farmer and citizens in all walks of life and our plant here is an important link in this great chain.

SAVANNAH, GEORGIA

MASTER'S SALE.

Notice is hereby given that under and by virtue of a final decree of foreclosure of lien made and rendered by the Hon. J. T. Willis, Judge of the Circuit Court, Eighth Judicial Circuit of Florida, in and for Alachua county, in a certain chancery cause therein pending, wherein the City of Gainesville, a municipal corporation under the laws of Florida, is complainant, and Primus Johnson, Rachael Johnson, Louis Johnson, Phiscilla Walker and W. T. Walker, her husband, Katie Johnson and Israel Johnson, her husband, Tom Johnson and Peter Johnson, are defendants, which said final decree was made and rendered on the 13th day of July, 1909, I, the undersigned, as Special Master in Chancery, will sell at public outcry, to the highest and best bidder for cash, before the Court House door in the City of Gainesville, Florida, on Monday, the 6th day of September, 1909, between the legal hours of sale, the following described land, situated and being in the City of Gainesville, Alachua county, Florida, and described as follows, towit:

The West Half of Block Thirteen (13) of Brown's Addition to Gainesville, Florida, except the following part thereof, towit: Commence at the Northwest corner of said West Half of said Block 13, run thence East 148 feet, thence South 150 feet, thence West 148 feet, thence North 150 feet to the point of beginning.

Together with all and singular the tenements, hereditaments and appurtenances to the same belonging or in anywise appertaining. Terms cash. Said sale to satisfy said decree and costs.

CHRISTOPHER MATHESON,
Special Master in Chancery.
W. S. BROOME,
Solicitor for Complainant.

MASTER'S SALE.

Under and by virtue of a decree of foreclosure of mortgage made and rendered on the 1st day of July, A. D. 1909, by the Honorable J. T. Willis, Judge of the Circuit Court of the Eighth Judicial Circuit, in and for Alachua county, Florida, wherein T. H. Cato is complainant and W. J. Howell and Sarah Ann Howell, his wife, are defendants, and wherein I was appointed as Special Master to execute said decree, and to sell the property hereinafter described, I will sell at public outcry, before the Court House door, in the City of Gainesville, Alachua county, Florida, on Monday, the 6th day of September, A. D. 1909, being a legal sale day, between the legal hours of sale, the following described property towit:

All that piece, tract or parcel of land situated, lying and being in the County of Alachua, State of Florida, and particularly known and described as follows, towit: East Half of Section Twenty-one, in Township Nine, South of Range Nineteen, East, containing three hundred and twenty acres of land, more or less; said property to be sold as the property of the said W. J. Howell, to satisfy and pay the said decree, fees and costs. Terms cash. W. S. BROOME,
Special Master in Chancery.

SHERIFF'S SALE.

Under and by virtue of divers and sundry executions issued out of the Circuit Court, Eighth Judicial Circuit of Florida, in and for Alachua county, Florida, on the 19th day of May, A. D. 1909, in certain causes therein pending wherein L. Mohr & Sons are plaintiffs and M. B. Davis is defendant, and R. C. Small is plaintiff and M. B. Davis is defendant, I. P. G. Ramsey, as sheriff of Alachua county, Florida, have levied upon and will sell before the Court House door, in Gainesville, Alachua county, Florida, on Monday, the 6th day of September, A. D. 1909, between the legal hours of sale on said day, the following described real estate, lying and being in the County of Alachua and State of Florida, towit: Lots 3 and 4, in Block 13 South of the railroad in the Town of Hague, Florida; also the fractional East Half of Section 2, Township 9, South of Range 19 East, containing 46 84-100 acres; also one-fourth of an acre described in Deed Book 65, at page 295 of the Public Records of Alachua county, Florida; together with all and singular the tenements, hereditaments and appurtenances thereto belonging or appertaining. Said property levied upon to satisfy the said executions and costs.

P. G. RAMSEY, Sheriff.

Notice of Application for Tax Deed
Under Section 8 of Chapter 4888,
Laws of Florida.

Notice is hereby given that W. A. Stringer, purchaser of Tax Certificate No. 316, dated the 4th day of September, A. D. 1905, has filed said certificate in my office, and has made application for tax deed to issue in accordance with law. Said certificate embraces the following described property situated in Alachua county, Florida, towit:

1/4 of SE 1/4 of SW 1/4 and SW 1/4 of SE 1/4 of SW 1/4, See 21, Tp. 11, S. R. 18-56 acres.

The said land being assessed at the date of the issuance of such certificate in the name of Unknown. Unless said certificate shall be condemned according to law, tax deed will issue thereon on the 6th day of September, A. D. 1909.

Witness my official signature and seal this the 3rd day of August, A. D. 1909. B. H. WIENGES.

Clerk Circuit Court Alachua County, Florida.

SHERIFF'S SALE.

Notice is hereby given that under and by virtue of the execution issued out of and under the seal of the Circuit Court of Marion county, Florida, on the 21st day of July, A. D. 1908, in a certain cause therein pending, wherein McIlwaine Knight and Walter G. Dunnington, co-partners doing business under the firm-name and style of McIlwaine Knight & Company, are plaintiffs, and Orlando S. Clyatt and C. W. Rush, co-partners doing business under the firm-name and style of Clyatt & Rush, are defendants, I have levied upon and will offer for sale at public outcry before the front of the County Court House, in Gainesville, Alachua county, Florida, on the first Monday in September, A. D. 1909, the same being the 6th day of said month and a legal sales day, within the legal hours of sale, the following described property, said property having been levied upon as the property of the said Orlando S. Clyatt, towit:

Lots 2 and 3, Block 14; Lot 5, Block 15; Lots 2, 3 and 4, Block 19, of the town of Trenton, Alachua county, Florida, as per plat of said town duly recorded in the office of the Clerk of the Circuit Court of said county:

Also, 8 1/2 of NE 1/4 and NE 1/4 of SW 1/4 and SE 1/4 of Section 10, Township 10, S. Range 15 E, 289 acres, Alachua county, Florida.

Also, NW 1/4 of NW 1/4 Section 28, Township 10, S. Range 15, E. 80 acres, Alachua county, Florida.

Terms of sale, cash. Purchaser to pay for title. P. G. RAMSEY.

Sheriff Alachua County, Florida.

Notice of Application for Tax Deed
Under Section 8 of Chapter 4888,
Laws of Florida.

Notice is hereby given that J. L. and R. D. Medlin, purchasers of Tax Certificate No. 214, dated the 3rd day of July, A. D. 1903, have filed said certificate in my office, and have made application for tax deed to issue in accordance with law. Said certificate embraces the following described property situated in Alachua county, Florida, towit:

Commence at intersection of N. line of Sec. 29, with N. line of Fernandez Grant, run S. 89 degrees, W. 1435 ft., S. 5 1/2 degrees, W. 995 ft., S. 6 1/2 degrees, W. 758 ft., S. 5 1/2 degrees, W. 236 ft., S. 67 degrees, E. 5050 ft. to SW. corner of Hague's land and N. 2125 ft. and N. 60 degrees, W. 3528 ft., Tp. 8-9 to beginning, R. 18-19-250 acres.

The said land being assessed at the date of the issuance of such certificate in the name of J. H. Stanley. Unless said certificate shall be redeemed according to law, tax deed will issue thereon on the 6th day of September, A. D. 1909.

Witness my official signature and seal this the 3rd day of August, A. D. 1909. S. H. WIENGES.

Clerk Circuit Court Alachua County, Florida.

PETITION FOR ELECTION.

To the Honorable Board of Public Instruction, Gainesville, Alachua County, Florida—We, the undersigned voters and tax-payers residing in the Trenton Special District, petition your Honorable Body to call an election for the purpose of changing the boundaries of the said Special District so as to embody the hereinafter described territory, and to elect trustees for the same, and to name the millage that shall be assessed on said territory:

Beginning at the SW. corner of Sec. 19, Tp. 10, R. 15, and running North 4 miles, thence East 3 miles, thence North 3 1/2 miles, thence East 3 miles, thence South 3 miles, thence West 1 mile, thence South 1 mile, thence East 1 mile, thence North 1/2 mile, thence East 1 mile, thence South 3 miles, thence West 3 miles, thence South to the Levy county line, thence Westward along the county line to beginning point. (Signed)

W. A. Brawneff, S. G. Gay, J. R. Beach, W. A. Lindsey, J. P. Watson, W. E. Bell, B. F. Williams, R. L. Tisen, H. F. Prooker, W. H. Jones, A. L. Sanders, W. F. Beach.

Note—The above petition will be acted upon by the Board of Public Instruction of Alachua county, Florida, together with all and singular the tenements, hereditaments and appurtenances thereto belonging or appertaining. Said property levied upon to satisfy the said executions and costs.

P. G. RAMSEY, Sheriff.

ABOUT ADVERTISING—NO. 1

The Perambulating Showcase

By Herbert Kaufman.

The newspaper is a *huge* shop window, carried about the city and delivered daily into hundreds of thousands of homes, to be examined at the leisure of the reader. This shop window is unlike the actual plate glass showcase only in *one* respect—it makes display of descriptions instead of articles.

You have often been impressed by the difference between the decorations of two window-trimmers, each of whom employed the same materials for his work. The one drew your attention and held it by the grace and cleverness and art manifested in his display. The other realized so little of the possibilities in the materials placed at his disposal that unless some one called your attention to his bungling you would have gone on unconscious of its existence.

An advertiser must know that he gets his results in accordance with the *skill* exercised in preparing his verbal displays. He must make people *stop* and pause. *His copy has to stand out.*

He must not only make a show of things that are attractive to the eye but are attractive to the people's needs as well.

The window-trimmer must not make the mistake of thinking that the showiest stocks are the most salable. The advertiser must not make the mistake of thinking that the showiest words are the most clinching.

Windows are too few in number to be used with indiscretion. The good merchant puts those goods back of his plate glass which nine people out of ten will want after they have seen them.

The good advertiser tells about goods which nine readers out of ten will buy if they can be convinced.

Newspaper space itself is only the window, just as the showcase is but a frame for merchandise pictures. A window on a crowded street in the best neighborhood, where prosperous persons pass continually, is more desirable than one in a cheap, sparsely settled neighborhood. An advertisement in a newspaper with the most readers and the most prosperous ones possesses a great advantage over the same copy in a medium circulating among persons who possess less means. It would be foolish for a shop to build its windows in the alleyway—and just as much so to put its advertising into newspapers which are circulated day and "all week long."

"That Which Is Worth Having Is Worth Advertising For"

The old adage that what is worth having is worth asking for is still true of the more intricate life of today.

The thing you want—whether it is a used piano or a home, whether it is a ready-made business or a lost pocket-book—is obtained readily through advertising, and with difficulty, or not at all, through other means.

THE SUN "WANT" AUS. BRING RESULTS

GAINESVILLE, —THE— University City.

Gainesville is conceded to be the most enterprising as well as the most beautiful city in the interior of Florida. It is located in the very center of the State, half way between the Atlantic and Gulf Coasts, surrounded by lands of such fertility as to be capable of producing a great variety of crops; in the heart of the truck-growing, phosphate and naval stores belt. She has the best educational advantages in the State, good churches, with edifices which are superior to any town of its size in Florida, with large and consistent congregations; has a climate which cannot be excelled for health and pleasure. All these natural advantages, combined with a progressive and enterprising cosmopolitan citizenship, are sure to make a big city.

There are many natural attractions in close proximity to the city, some of which are Alachua Sink, Paine's Prairie, the Devil's Mill Hopper, Warren's Cave, and Lake Newnan, all of which are reached by private conveyance.

Spring Park Stock Farm, the largest and finest live stock farm in the State, is only eight miles west of the city and is reached by a good hard road, affording a most pleasant drive.

The farmers of Alachua county, of which Gainesville is the county seat, "live at home and board at the same place." The temperature is very uniform, scarcely ever reaching the nineties in summer or the twenties in winter. The population of Gainesville is about eight thousand, representing nearly every nationality on the face of the earth, and strangers always meet with a hearty welcome.

The University of Florida for young men and the National Agricultural Experiment Station are located within the corporate limits of the city. In fact, Gainesville has so many things that we must be pardoned if we omit

a few of them in the following enumeration of what

Gainesville Has:

One artist.
No saloons.
One garage.

Who Pays For Your Printing?

Poor printing is a detriment to any business, and is an unprofitable investment. Poor printing is usually paid for twice—once when you settle with the printer, and again in the injury it does your business.

GOOD PRINTING PAYS FOR ITSELF!

In the added business it brings, in the complete satisfaction you feel in sending out neat, tasty stationery, and its first cost is soon on the credit side of the ledger. Good printing is remembered long after the price is forgotten.
